Testimonials

I started working with Dan on a referral from a friend. From the first day I met him, I felt like we were old friends. What started off as yoga sessions gradually turned into personal coaching and it has made all of the difference. I was coming out of a divorce and was not in a great place. Now, I can honestly say my life has changed.

Todd A.

I met Dan through his meet up group where he gave one of his talks and I was hooked. He is a great speaker and the information he presented was different than the kind of stuff I was used to hearing. I started his course and now I recommend him to every guy I meet that could use some extra help.

Edward T.

I found Dan on social media and I was so inspired by his message that I decided to reach out to him for one-on-one coaching. It's only been a few weeks, but the results have been noticeable. I feel calmer, more centered and I am noticing less of my normal anxiety... Thanks, Dan.
